Air Quality Monitor

list of classes

Class	Description
sensorAdmin	class SensorAdmin template_name = "sensoradmin.html" model = Sensors
sensorList	class SensorDetailListAdmin template_name = "sensor.html" model = Sensors
dataGrphs	class SensorDisplayGraph template_name = " graphs.html" model = DataSensor
sensorMaps	class SensorDisplayMap template_name = " maps.html" model = DataSensor
user-admin	class UserAdmin template_name = " userAdmin.html" model = Users
singUp	class SingUpView template_name = " singUp.html" model = Users
Sensor	Class Sensor sensorID Latitude: boolean Longitude: boolean Temperature: boolean Humidity: boolean Pression: boolean Altitud: boolean PM10: boolean
DataSensor	Class DataSensor sensorID measurementDate: date measurementTime: time Latitude: real Longitude: real Temperature: real Humidity: real Pression: real Altitud: real PM10: real
SensorReading	Class SensorReading sensorID measurementDate: date measurementTime: time Latitude: real

	Longitude: real Temperature: real Humidity: real Pression: real Altitud: real PM10: real
Users	Class Users userID email password firstName LastName researchCenter proyectName country
